

Half Yearly Compliance Report**2025****01 Dec(01 Apr - 30 Sep)****Acknowledgement**

Proposal Name	Proposed Data Center Park by Data Center Holdings India LLP		
Name of Entity / Corporate Office	DATA CENTER HOLDINGS INDIA LLP		
Village(s)	N/A		
District	THANE		
Proposal No.	SEIAA-EC-0000002077	Category	INFRA-1
Plot / Survey / Khasra No.	N/A	Sub-District	N/A
State	MAHARASHTRA	Entity's PAN	*****6673N
MoEF File No.	0000002077	Entity name as per PAN	DATA CENTER HOLDINGS INDIA LLP

Compliance Reporting Details

Reporting Year	2025
Remarks (if any)	we are hereby submitting six monthly compliance Report .
Reporting Period	01 Dec(01 Apr - 30 Sep)

Details of Production and Project Area

Name of Entity / Corporate Office DATA CENTER HOLDINGS INDIA LLP

	Project Area as per EC Granted	Actual Project Area in Possession
Private	62490	62490
Revenue Land	0	0
Forest	0	0
Others	0	0
Total	62490	62490

Production Capacity

Sr. no	Product Name	units	Valid Upto	Capacity	Production last year	Capacity as per CTO
1	Data Center Park with Office Building	Others:Sqm.	31/08/2026	Data Center Park with Office Building	NA	As per CTO

Conditions

Specific Conditions

Sr.No.	Condition Type	Condition Details
1	Statutory compliance	PP to upload the copy of partnership deed.
PPs Submission: Complied We had uploaded the copy of LLP transfer of interest Amended and Restated LLP agreement on http://www.ecmpcb.in/login portal dated 22/10/2019. Annexure No. 02: LLP transfer of interest Amended and Restated LLP agreement and screenshot of the same uploaded on portal.		Date: 26/07/2025
2	Corporate Environmental Responsibility	PP to upload the copy of IOD.
PPs Submission: Complied We had uploaded the copy of IOD (No.EE/MHP II/TTC/B76038/of19, dated 27/05/2019) on http://www.ecmpcb.in/login portal dated 22/10/2019. IOD copy and screenshot of the same uploaded on portal		Date: 26/07/2025
3	WATER QUALITY MONITORING AND PRESERVATION	As presented by PP, PP to ensure that the project should be zero discharge project in dry season.
PPs Submission: Complied During operational phase the waste water generation will be 74 KLD and we have proposed 2 STPs of 50 KLD each for waste water treatment. The total treated water available during Non Monsoon/dry season will be 71 KLD and it will recycle for flushing (09 KLD) and gardening water demand (62 KLD), however we ensure that the project shall have zero discharge during dry season.		Date: 26/07/2025
4	Statutory compliance	PP submitted the copy of CFO NoC for phase I. PP to obtain the CFO NoC from time to time.
PPs Submission: Complied We have received provisional CFO NoC (MIDC/Fire/D 06038 dated 16/09/2019) and we herewith assure that we will obtain phase wise CFO NoC -Provisional CFO NoC		Date: 26/07/2025
5	WATER QUALITY MONITORING AND PRESERVATION	As presented, PP to ensure that STP should be on ground open to sky.
PPs Submission: Complied Noted and we ensure that STP will be on ground and open to sky.		Date: 26/07/2025
6	Statutory compliance	PP to ensure ECBC norms are complied with
PPs Submission: Complied Noted and we have carried out ECBC study and the project design is compliant with ECBC norms.		Date: 26/07/2025
7	ENERGY PRESERVATION MEASURES	PP to explore the possibility to increase the energy saving by solar energy upto 2 percent
PPs Submission: Complied The overall percentage of energy saving is 2.68 due to following features 1. LED Light Fixtures with Timer and photo Electric sensors to save energy for internal, external and Landscape Facade Lighting. 2. All cables shall be FRLHS and XLPE suitably de rated to avoid heating during use. 3.		Date: 26/07/2025

Copper conductor cables to be used for sizes of 16 sq. mm and below to reduce losses and improve reliability save energy. 4. Power factor shall be maintained to 0.95 or higher to reduce Electrical losses and save energy. 5. Energy Efficient Air conditioning units (minimum 3 star rating) 6. Selection of Efficient HVAC and Plumbing Equipment 7. Solar energy And we are exploring the possibility to increase the energy saving by solar PV panel within the site.		
8	ENERGY PRESERVATION MEASURES	PP during presentation informed that there will 400 employees in 3 shifts therefore there will not be more than 150 employees at one time and parking provided is 474 which is too high, therefore, committee asked PP to provide exact required parking and get it approved from local planning authority. PP to use those parking area as RG or to install solar panels
PPs Submission: Complied Noted Letter submitted to MIDC for amendment in parking norms for Data Center Development.		Date: 26/07/2025
9	Marine/Coastal	The PP to get NOC from competent authority with reference to Thane creek flamingo sanctuary if the project site falls within 10 Km radius from the said sanctuary boundary. The planning authority to ensure fulfilment of this condition before granting CC.
PPs Submission: Complied The project site is at a distance of 2.1 Kms. from the nearest Thane creek flamingo sanctuary coordinates and we have received a letter for non applicability of ESZ of Thane Creek Flamingo Sanctuary .		Date: 26/07/2025
10	Human Health Environment	PP to submit CER prescribed by MoEF and CC circular dated 1.5.2018 relevant to the area and people around the project or Environment Department may direct PP to undertake CER work in identified area, as identified by Environment Department
PPs Submission: Complied Noted and we have submitted a CER letter as prescribed by MoEF and CC circular dated 1.5.2018 to SEAC II Maharashtra.		Date: 26/07/2025
11	Statutory compliance	PP to ensure that CER plan get approved from Municipal Commissioner/District Collector.
PPs Submission: Complied Noted and we have submitted a CER letter as prescribed by MoEF and CC circular dated 1.5.2018 to SEAC II Maharashtra and we will submit the same to Municipal Commis sioner/District Collector.		Date: 26/07/2025
12	Statutory compliance	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEFCC vide F.No.22 34/2018 IA.III dt.04.01.2019.
PPs Submission: Complied Noted and we will comply the same.		Date: 26/07/2025
13	Statutory compliance	SEIAA decided to grant EC for FSI 86205.104 m2,Non FSI 23163.869 m2 and Total BUA 109368.983 m2 (Plan Approval no EE/MHP II/TTC/B 76038 of 19, Date 27.05.2019)
PPs Submission: Complied Noted		Date: 26/07/2025

General Conditions

Sr.No.	Condition Type	Condition Details
1	GREENBELT	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
PPs Submission: Complied The landscape will be developed considering CPCB guidelines. Local tree species will be used for plantation.		Date: 26/07/2025
2	WASTE MANAGEMENT	E waste shall be disposed through Authorized vendor as per E waste (Management and Handling) Rules, 2016.
PPs Submission: Complied E waste generation during operation phase shall be 100 kg/year and the same shall be disposed through Authorized vendor as per E waste (Management and Handling) Rules, 2016.		Date: 26/07/2025
3	Statutory compliance	This environmental clearance is issued subject to obtaining NOC from Forestry and Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable and this environment clearance does not necessarily implies that Forestry and Wild life clearance granted to the project which will be considered separately on merit.
PPs Submission: Complied The project site is at a distance of 2.1 Kms. from the nearest Thane creek flamingo sanctuary coordinates and we have received a letter for non applicability of ESZ of Thane Creek Flamingo Sanctuary.		Date: 26/07/2025
4	WATER QUALITY MONITORING AND PRESERVATION	The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water,connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
PPs Submission: Complied Noted and agreed to.		Date: 26/07/2025
5	Statutory compliance	PP has to abide by the conditions stipulated by SEAC and SEIAA.
PPs Submission: Complied Noted		Date: 26/07/2025
6	Corporate Environmental Responsibility	The height, Construction built up area of proposed construction shall be in accordance with the existing FSI/FAR norms of the urban local body and it should ensure the same along with survey number before approving layout plan and before according commencement certificate to proposed work. Plan approving authority should also ensure the zoning permissibility for the proposed project as per the approved development plan of the area.
PPs Submission: Complied The height of the construction built up area is accordance with the FSI/FAR norms of MIDC.		Date: 26/07/2025
7	MISCELLANEOUS	If applicable Consent for Establishment shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of

		any construction work at the site.	
		<p>PPs Submission: Complied</p> <p>We have obtained the Consent to Establish from Maharashtra Pollution Control Board vide consent order no. Format1.0/CAC CELL/UAN NO. 0000080814/CE 1001911,dated 28/01/2020 and validity of Consent up to 31/12/2024. A copy was submitted to empcb portal, Maharashtra Pollution control Board regional office and MOEF and CC, Nagpur along with Dec 2019 May 2020 report.</p>	<p>Date: 26/07/2025</p>
8	Corporate Environmental Responsibility	All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.	
		<p>PPs Submission: Complied</p> <p>Construction activity is under progress. All Health and Safety measures have been taken by the Environment Management cell and temporary toilets, mobile along with on site water supply and sanitation facilities are provided on site.Considering the current Covid 19 situation, proponent is carrying out bi monthly check ups for all the employee, contractors, and workers.</p>	<p>Date: 26/07/2025</p>
9	WASTE MANAGEMENT	Adequate drinking water and sanitary facilitie should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.	
		<p>PPs Submission: Complied</p> <p>Construction activity has started at site. All sanitary measures have been provided for construction workers.Drinking water is provided through bottled RO water to on site staff and construction workers. The waste generated from the site will be collected and segregated into wet and dry waste and disposed off in municipal bins through dust bins.</p>	<p>Date: 26/07/2025</p>
10	WASTE MANAGEMENT	The solid waste generated should be properly collected and segregated. Dry/ inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.	
		<p>PPs Submission: Complied</p> <p>Construction activity has started at site.The waste generated from at site is collected and segregated into wet and dry waste and disposed off in municipal bins through dust bins.There is no kitchen at site, therefore organic waste generated at site is negligible.If waste arises in future, during operation phase the solid waste will be collected and segregated into wet and dry waste.Wet waste will be converted into compost through organic waste converter and the manure will be used for landscaping purpose and the dry waste will be handover to municipal corporation .DCHI has signed an agreement with an Authorized vendor-for collection of Biomedical, E waste and Recyclable waste.</p>	<p>Date: 26/07/2025</p>
11	Human Health Environment	Disposal of muck during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	
		<p>PPs Submission: Complied</p> <p>Re utilisation and recycling strategy for construction debris is followed. All the aggregates are recycled and re utilised within the premise.</p>	<p>Date: 26/07/2025</p>
12	WASTE MANAGEMENT	Arrangement shall be made that waste water and storm water do not get mixed.	
		<p>PPs Submission: Complied</p> <p>Designing of separate pipeline for waste water and laying of separate drain line for storm water will be done.</p>	<p>Date: 26/07/2025</p>

13	Corporate Environmental Responsibility	All the topsoil excavated during construction activities should be stored for use in horticulture /landscape development within the project site.
PPs Submission: Complied Noted and top soil will be used for Landscaping purpose within the project site.		Date: 26/07/2025
14	LAND RECLAMATION	Additional soil for levelling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
PPs Submission: Complied Excavated soil will be reused for ground filling, levelling and internal roads at construction site.		Date: 26/07/2025
15	LAND RECLAMATION	Soil and ground water samples will be tested to as certain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
PPs Submission: Complied The construction process does not involve any activity which may lead to leaching of heavy metals and toxic contaminants. Hence, there will be no threat of contamination to sub soil and ground water. Soil and ground water samples were tested.		Date: 26/07/2025
16	MINING PLAN	Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water.
PPs Submission: Complied There is no bituminous waste at site. All precautions are being taken to prevent contamination of water sources. The construction process will not involve storage of hazardous material to be consumed in building construction works. Used Oil generated from DG sets shall be stored in a covered area with paved floor and secondary containment and shall be disposed to MPCB authorized disposal facility. Anti corrosive chemical waste generated during construction was disposed to authorized hazardous waste management facility		Date: 26/07/2025
17	WASTE MANAGEMENT	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
PPs Submission: Complied There are negligible quantities of oil spillage from construction machinery and vehicles.Used oil from DG sets will be disposed through authorized recyclers.		Date: 26/07/2025
18	AIR QUALITY MONITORING AND PRESERVATION	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection)Rules prescribed for air and noise emission standards.
PPs Submission: Complied D.G. Set is operated only in case of power failures during Construction and operation phase.We have provided the DG sets which are of enclosed type and confirms to EPA standard. Two DG Sets of capacity 125 kVA and 62.5 kVA are available at site.		Date: 26/07/2025
19	Noise Monitoring & Prevention	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken.

PPs Submission: Complied We have received the PESO (Petroleum and explosive Safety Organisation) NOC for installing 7 by 80 KL UG tank for HSD storage.		Date: 26/07/2025
20	MISCELLANEOUS	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non peak hours.
PPs Submission: Complied Not Applicable		Date: 26/07/2025
21	AIR QUALITY MONITORING AND PRESERVATION	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
PPs Submission: Complied Construction activity is in progress During construction adequate measures are taken to maintain air quality and noise levels within the prescribed limits. Dust suppression of fugitive dust arising mainly due to transportation of construction material is carried out by water sprinkling. The vehicles hired by the contractor for construction purpose are checked for valid PUC Certificate. Ambient air and noise level monitoring is carried out during the construction phase to ensure that the ambient air quality and noise levels are within the prescribed limits		Date: 26/07/2025
22	ENERGY PRESERVATION MEASURES	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August, 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations).
PPs Submission: Complied Through RMC plant, we are supplying concrete with 20 25 percent fly ash for building construction.		Date: 26/07/2025
23	MISCELLANEOUS	Ready mixed concrete must be used in building construction.
PPs Submission: Complied We are using ready mixed concrete for construction. RMC mixer trucks are used for the same.		Date: 26/07/2025
24	WATER QUALITY MONITORING AND PRESERVATION	Storm water control and its re use as per CGWB and BIS standards for various applications.
PPs Submission: Complied Storm water control and its reuse will be as per Central ground water board and BIS standards.		Date: 26/07/2025
25	WATER QUALITY MONITORING AND PRESERVATION	Water demand during construction should be reduced by use of pre mixed concrete, curing agents and other best practices referred.
PPs Submission: Complied Water demand during construction phase is reduced by use of Ready Mix Concrete (RMC)		Date: 26/07/2025
26	WATER QUALITY MONITORING AND	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.

	PRESERVATION	
PPs Submission: Complied Noted		Date: 26/07/2025
27	WATER QUALITY MONITORING AND PRESERVATION	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/ refused to the maximum extent possible. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treatment of 100 Gray water by decentralised treatment should be done. Necessary measures should be made to mitigate the odour problem from STP.
PPs Submission: Complied STP will be certified by independent expert and same will be commissioned after due approval from MPCB. The 100 treatment will be done and treated sewage will be used for gardening and flushing purpose. The total treated water available during Non Monsoon/dry season will be 71 KLD and it will recycle for flushing (09 KLD) and gardening water demand (62 KLD), however we ensure that the project will have zero discharge during dry season. During wet/ Monsoon season excess (62 KLD) will be drained into existing sewer line and will conform to the norms of MPCB.		Date: 26/07/2025
28	Statutory compliance	Permission to draw ground water and construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
PPs Submission: Complied No Extraction of Ground water.		Date: 26/07/2025
29	WATER QUALITY MONITORING AND PRESERVATION	Separation of Gray and black water should be done by the use of dual plumbing line for separation of Gray and black water.
PPs Submission: Complied We will use dual pumping line for separation of black and grey water.		Date: 26/07/2025
30	Statutory compliance	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
PPs Submission: Complied Yes. Low pressure water fixtures are proposed.		Date: 26/07/2025
31	ENERGY PRESERVATION MEASURES	Use of glass may be reduced up to 40 percent to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.
PPs Submission: Complied We will use double glazed glass for window and glazing especially where sun exposure is maximum.		Date: 26/07/2025
32	ENERGY PRESERVATION MEASURES	Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfil requirement.

<p>PPs Submission: Complied We will use appropriate thermal insulation material to fulfill the prescriptive requirement as per energy conservation building code.</p>		<p>Date: 26/07/2025</p>
33	ENERGY PRESERVATION MEASURES	<p>Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible like installing solar street lights, common solar water heaters system. Project Proponent should install,after checking feasibility, solar plus hybrid non conventional energy source as source of energy.</p>
<p>PPs Submission: Complied Energy Saving Measures includes 1. LED Light Fixtures with Timer and photo Electric sensors to save energy for internal, external and Landscape Facade Lighting. 2. All cables shall be FRLHS and XLPE suitably derated to avoid heating during use. 3. Copper conductor cables to be used for sizes of 16 sq. mm and below to reduce losses and improve reliability save energy. 4. Power factor shall be maintained to 0.95 or higher to reduce Electrical losses and save energy. 5. Energy Efficient Air conditioning units (minimum 3 star rating) 6. Selection of Efficient HVAC and Plumbing Equipment 7. Solar energy</p>		<p>Date: 26/07/2025</p>
34	Noise Monitoring & Prevention	<p>Diesel power generating sets proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.</p>
<p>PPs Submission: Complied D.G. Set are operated only in case of power failures during Construction and operation phase.We will provide the DG sets which is of enclosed type and confirms to EPA standard.</p>		<p>Date: 26/07/2025</p>
35	Statutory compliance	<p>Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.</p>
<p>PPs Submission: Complied We have received the Environment Clearance copy from SEIAA, Maharashtra: SEIAA-EC-0000002077, dated November 10, 2019</p>		<p>Date: 26/07/2025</p>
36	Statutory compliance	<p>Six monthly monitoring reports should be submitted to the Regional office MoEF, Bhopal with copy to this department and MPCB</p>
<p>PPs Submission: Complied March 2021 Monitoring report is attached herewith</p>		<p>Date: 26/07/2025</p>
37	Noise Monitoring & Prevention	<p>Noise should be controlled to ensure that it does not exceed the prescribed standards. During night time the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.</p>
<p>PPs Submission: Complied There is boundary wall and trees will be planted on RG area.This will act as noise barriers. All</p>		<p>Date:</p>

precautions will be taken to control the noise level during day and night. Noise levels will be monitored be within the prescribed during the operation phase to ascertain the noise levels.		26/07/2025
38	Noise Monitoring & Prevention	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalised and no public space should be utilised.
PPs Submission: Complied Public road and public area are not being used for project activity purpose and are free from smooth traffic movement. Provisions will be made for adequate parking facilities within the project complex and no public space will be used for parking of vehicles. Approximately 400 nos. of parking will be provided		Date: 26/07/2025
39	Noise Monitoring & Prevention	Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code, which is proposed to be mandatory for all air conditioned spaces while it is aspiration for non air conditioned spaces by use of appropriate thermal insulation material to fulfil requirement.
PPs Submission: Complied We will comply with the same.		Date: 26/07/2025
40	AIR QUALITY MONITORING AND PRESERVATION	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.
PPs Submission: Complied We are providing enough distance between the buildings, for easy movement of air and passage of natural light. Approved Plans copy is enclosed.		Date: 26/07/2025
41	AIR QUALITY MONITORING AND PRESERVATION	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.
PPs Submission: Complied Regular monitoring is carried out by assigned EHS officer of contractors and DCHI from EMP Cell		Date: 26/07/2025
42	Statutory compliance	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line .No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.
PPs Submission: Complied Noted We will install 2 STP of 50 m3/day. In dry season we ensure that there will be no discharge in sewer line and in wet season the discharge of excess treated water as per MPCB norms.Organic waste converter for wet garbage will be provided while dry garbage will be recycled via Municipal Corporation. Landscape area will be developed prior operations of the buildings.		Date: 26/07/2025
43	WASTE MANAGEMENT	Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilised in the existing premises for gardening. And,no wet garbage will be disposed outside the premises. Local authority should ensure this.

<p>PPs Submission: Complied Currently, the solid waste generated is properly collected and segregated and disposed to municipal bins. During operation phase, wet garbage will be composted by organic waste converter technology and manure will be used in landscape development.</p>		<p>Date: 26/07/2025</p>
44	Statutory compliance	Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of MPCB.
<p>PPs Submission: Complied Noted and agreed to all due approvals will be taken from MPCB and planning authority before occupation.</p>		<p>Date: 26/07/2025</p>
45	Statutory compliance	A complete set of all the documents submitted to Department should be forwarded to the Local authority and MPCB.
<p>PPs Submission: Complied We have submitted all required documents to the Local authority and Maharashtra Pollution Control Board.</p>		<p>Date: 26/07/2025</p>
46	Statutory compliance	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Department .
<p>PPs Submission: Complied Noted</p>		<p>Date: 26/07/2025</p>
47	Statutory compliance	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
<p>PPs Submission: Complied Yes. We have provided the same.</p>		<p>Date: 26/07/2025</p>
48	Statutory compliance	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item wise breaks up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year wise expenditure should reported to the MPCB and this department.
<p>PPs Submission: Complied Construction activity is under progress at site and EMP is taken care by Environment Management Cell (EMP Cell)</p>		<p>Date: 26/07/2025</p>
49	Statutory compliance	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at http://ec.maharashtra.gov.in .
<p>PPs Submission: Complied Noted and given to The Free Press Journal and Navashakti Newspaper, published on 15th November 2019.</p>		<p>Date: 26/07/2025</p>
50	Statutory compliance	Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and

		condition in hard and soft copies to the MPCB and this department, on 1st June and 1st December of each calendar year.
PPs Submission: Complied Noted		Date: 26/07/2025
51	Statutory compliance	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
PPs Submission: Complied We will comply with the same.		Date: 26/07/2025
52	Statutory compliance	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM. SO ₂ , Nox (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
PPs Submission: Complied We are submitting the January 2024 to June 2024 compliance report. We have submitted six monthly compliance reports for January 2024 to June 2024 report to empcb portal, Regional Maharashtra Pollution Control Board office and MOEF and CC, Nagpur office		Date: 26/07/2025
53	Statutory compliance	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
PPs Submission: Complied As per EC conditions we are submitting the six monthly compliance report for January 2024 to June 2024. Monitoring reports are enclosed.		Date: 26/07/2025
